IN THE CLAIMS

Cancel claims 1, 2, 6-10, and 14-19.

Cancel claims 3-5 and 11-13 and add new claims 20-25 in their place as follows:

- 1 ~~20~~. A self-service terminal comprising:
means defining a media entry slot;
shutter means movable into at least partly overlapping relationship with the slot, the shutter means comprising a plurality of shutters; and
control means for moving the shutter means relative to the slot to define an entry aperture.
- 2 ~~21~~. A self-service terminal according to claim ~~20~~¹, wherein one shutter is movable vertically relative to the slot, and another shutter is movable horizontally relative to the slot.
- 3 ~~22~~. A self-service terminal comprising:
means defining a media entry slot;
shutter means movable into at least partly overlapping relationship with the slot, the shutter means comprising paired opposed shutters; and
control means for moving the shutter means relative to the slot to define an entry aperture.
- 4 ~~23~~. A self-service terminal comprising:
means defining a media entry slot;
a number of shutters movable into at least partly overlapping relationship with the slot, the number of shutters comprising a plurality of shutters; and
a controller for moving the shutters relative to the slot to define an entry aperture.
- 5 ~~24~~. A self-service terminal according to claim ~~23~~⁴, wherein one shutter is movable vertically relative to the slot, and another shutter is movable horizontally relative to the slot.
